GO GREEN

The first step towards a circular society is to use recycled and recyclable materials as much as possible. When we develop items we decide per product what is the most important element. Ideally you look for products that are recycled and can be recycled easily again. But even when a product is less easy to recycle, using materials that are recycled will use less resources than those needed to make a product out of virgin materials. Look for the Green Concept products when you are looking for a more sustainable option

Americano[®]

NEW!
Spill-proof
lid option.

Durable polypropylene material
makes the mug ideal for repeat use
and is microwave and dishwasher safe.
It's also fully recyclable.

Secure
screw-fix lid.

Double-wall
design for
extra insulation.

Silicone grip
option for extra
comfort and
decorating
opportunities.

Wide choice of styles,
capacities, colours and
decorating options to
help you create your
perfect Americano.

HOWEVER YOU DRINK YOUR COFFEE,
THERE'S AN AMERICANO[®] FOR YOU!

WHAT'S NEW IN THE AMERICANO COLLECTION?

NEW! SPILL-PROOF LID

Designed to protect against spills, the lid has been designed without any silicone. This means the lid is fully recyclable. We even have a version from recycled plastic!

Available on selected models across the range!

NEW! RECYCLED OPTIONS

The Americano Recycled options offer you a mug made entirely from in-house pre-consumer recycled plastic. Or, to add a splash of colour to your mug, the Americano Eco has a recycled lid, with a standard lid in a range of colours.

NEW! ANTIMICROBIAL PROTECTION

The Americano Pure contains Biomaster antimicrobial technology. This provides protection against the growth of harmful micro-organisms on the surface of your mug.

WHICH *Americano*[®] IS RIGHT FOR YOU?

THOROUGH SUSTAINABILITY

We strive to operate with sustainability in mind at all times. The products we sell are manufactured in a responsible and ethical fashion and abide by national regulatory requirement norms in each of our markets. These very norms allow our production experts to identify any issues early on in the development phase that might not comply with the aforementioned norms and hinder our sustainable production methods.

Product compliancy is also monitored throughout the entire production life cycle. We work hard to meet our customers' high expectations and transparency requirements for the European markets. Up-to-date regulations are made readily available during the production life cycle ensuring products are compliant down to the very last detail. All products are subject to compliancy reviews prior to and after launch at both our own testing facilities and at third party testing labs.

Our solid quality-control methods ensure that the products you'll choose for your brand can be sold and used with confidence.

GOVERNANCE

Sustainability is an ethical imperative that we follow at all corporate levels. In partnership with our supply chain, we aim at continuous social, ecological and economic improvement in the sourcing of our products, the products themselves, our logistics chain, and our own production and branding facilities.

PRODUCTS

The way we assure product responsibility adds extra value to our promotional products. We are continuously improving our Product Portal, e.g. with information on compliance with European REACH and RoHS chemical requirements, as well as voluntary sustainability standards such as:

CUSTOMER

For the customers of promotional goods, sustainable branding becomes increasingly important. Their credibility builds on transparency, reliable sourcing and sustainability of both the production process and the promotional product itself.

PRODUCTION

For our production facility and pan-European logistics centre, environmental excellence is a win-win strategy. Its ISO 14001-certified environmental management aims at continuous improvement of environmental indicators. Long term investments are showing results, e.g. in the reduction of materials and energy consumption.

YOUR FINISHING TOUCH

Custom decoration is a great way to reinforce your brand identity. Especially if, as shown throughout this catalogue, you apply it to multiple items. A wide choice of quality techniques, including the impressive new textile method HXD, means you can get both the look you want and the quality you need.

Whether you prefer cool and subtle, distinctively stylish or to boldly grab attention, you can rely on us for expert service. Feel free to ask us for advice and inspiration.

PADPRINT

Great all round cost effective solution. Can be applied on virtually any shape. Suitable for any surface texture, including soft products like stress balls. Perfect for multi coloured logos. Fast and economical

DIGITAL PRINTING

Perfect for multi coloured logos. Create a unique effect with matt, gloss or embossed finishes. This full colour print option also applies to paper insert products. Strong resistance to fading or damage. Ideal for smaller quantities. Can only be applied to flat or slightly curved surfaces.

IN-MOULD

An innovative way to mould your design into a product at the point of manufacture. Allows full colour designs to a selection of products, through the patented Brite™ process.

LITHO PRINT

Delivers vibrant, high quality print to paper items such as desk-pads. This high speed print option deliver excellent consistency. Uses four colour process as standard.

RELIEF MOULD

Add an extra dimension with this tactile branding method. Custom tooling allows your message to be moulded into the product, with an embossed end effect.

FLEXOGRAPHIC

A form of rotary print, allowing print to flexible material, such as ribbon. Up to six spot colour print is possible with this method.

SCREENROUND

Long lasting results. Apply sharp, high quality decoration on curved products. Economic choice for large quantities. Multi colour decoration available on a selection of pens. Ideal for text

SCREENPRINT

Long lasting results. Good cost effective solution for larger quantities. Allows single and multi colour decorations. Great choice for a distressed look and feel. Can only be applied to flat surfaces
